2005 - 2006

Student Records Data Collection – 2005 - 2006

General Information

To comply with the information and reporting requirements for adequate yearly progress, report cards, and performance indicators of the No Child Left Behind Act (NCLB), the Department of Education has implemented a Student Records Data Collection System to consolidate and promote efficiency in processing multiple data collections.

1. Collect Data

- Collect the data within the division.
- Compile the aggregate data required on the Miscellaneous Web Data Collection Statistics.
- Use the File Layout to assemble a tab-delimited file of the student level data.

2. Submit Data

- Log in to the Single Sign-On for Web Application Systems (SSWS).
 - Enter the data for the Miscellaneous Web Data Collection Statistics.
 - Upload the tab-delimited file of student records for the Student Records Data Collection.

3. Check SSWS for Pass/Fail notifications

- The status of the submitted student records file can be found on the Status Tracking page of the SSWS.
- Once the Student Record data is processed, a color-coded notification table on the Submit Data page will indicate whether the uploaded file passed or failed the four (4) validation checkpoints.
- These checkpoints are only related to the file layout. Any file with a FAIL indicator must be corrected and resubmitted. (Return to Step 1.)

4. View or Download the data edits from SSWS

- After the uploaded file of Student Record data passes the four validation checkpoints, the data elements for each record will be validated.
- Two types of errors could be generated. Fatal errors consist of erroneous data for the required elements and Warnings consist of erroneous data for optional elements.
- Unless a Successful Upload Status is received in the Status Tracking table, all fatal errors must be corrected and resubmitted. (Return to Step 1.)

5. Download the Verification Report from SSWS

- After all the fatal errors have been corrected, resubmitted and the file is error free, the verification reports can be downloaded.
- **Note:** If tuition is paid to other LEAs, the Verification Report is dependent upon the data of those LEAs. Therefore, the Verification Report may not be accurate until all the data from those LEAs has been submitted.
- These reports should be reviewed very carefully. If inaccurate, the Miscellaneous Web Data Collection Statistics or the tab-delimited file of student record data must be corrected and resubmitted. (Return to Step 1.)
- If the reports are correct, a signed copy must be faxed (804-786-0101) or mailed to VDOE, P.O. Box 2120, Richmond, VA 23216-2120. If there are any identified errors at

Student Records Data Collection – 2005 - 2006

this point, the entire Student Records Data Collection file must be corrected and resubmitted. (Return to Step 1.)

- The entire process from original submission to signing the Verification Reports should be less than 30 days.

Individual Student Level Records

- Every student who depends on a public school division in Virginia for a free appropriate public education must be included in each student record collection. This includes all full-time and part-time students served in the division's schools as well as those the division has helped place in other public and private schools/centers regardless of how the placements are funded.
- One record per student per school per record collection EXCEPT when Grade Level Code, Kindergarten Half-Day Flag, GED Program Code, Tuition Paid Code, or Non-public student FTE changes while still attending the same school. In these cases, a student MAY have more than one record per school per record collection.
- If a student has more than one record, only one record can be Active.

Compile your data for each student:

- Include all required elements. Any element not required is optional. If optional elements are not submitted, a tab character must be included. Any record that does not have the correct number of tab characters will FAIL the second of four first round validation checkpoints.
- Any student who is receiving educational services that are in whole or in part being paid for with state or federal money must be included in the Student Records Data Collection.
 - Any student who receives educational services at a public school in Virginia OR who attends a private school where a Local Education Agency (LEA) pays the tuition should be reported.
 - In general, the school division (Serving Division) that provides the educational services to the student will submit a record(s) for the student. Only the LEAs, the Schools for the Deaf and Blind, and the Department of Correctional Education report data to the Virginia Department of Education. If a student receives educational services from another source, then the division that is fiscally responsible for that student will report a record(s) for the student. **Note:** The LEAs' division numbers are all less than or equal to 219, the Department of Correction's division number is 900 and the State Operated Program's division number is 901. Therefore, if the Serving Division number is greater than 219 OR not equal to 900 or 901, the Responsible Division will report the record(s).
 - The record(s) of a student who is enrolled in a half-day program at a Governor's School or other type of regional center or school should have the Governor's School or other type of regional center or school listed as the Serving Division and Serving School/Center.
- One record is due for each student at each school where the student has at least one day of membership. A student who entered and withdrew from several different schools during the school year will have one record for each school.

Student Records Data Collection – 2005 - 2006

- **Exception:** A student, who completed the prior school year but did not report for the current school year by October 1, will also have one record on the current school year's EOY collection even though the record may not have an Entry Code or Entry Date and will show zero days of Aggregate Days Present and Aggregate Days Absent. (See Summer Dropout Flag.)
- **Exception:** A student, whose W8 Exit/Withdrawal Code changed to W4, W5, W6, or W7 between the EOY submission and October 1 of the next school year, will have a "corrected" record on the current school year's FALL collection even though the record may not have an Entry Code or Entry Date. (See Active Status Code.)
- **Exception:** A student, whose W9 Exit/Withdrawal Code changed to W4, W5, W6, W7 or W8 between the EOY submission and their expected return date, will have a "corrected" record on the current school year's EOY collection even though the record may not have an Entry Code or Entry Date. (See Active Status Code.)
- **Exception:** One record per student per school per record collection EXCEPT when Grade Level Code, Kindergarten Half-Day Flag, GED Program Code, Tuition Paid Code, or Non-public student FTE changes while still attending the same school. In these cases, a student MAY have more than one record per school per record collection.
- **Exception:** A student, who returns to school after completing the 12th grade to take an SOL for verified credit, will also have a record on the Student Record Collection.

Data Format Guidelines:

- **Flags:** If the data element name contains the word "flag", an **N** for 'no' or a **Y** for 'yes' is required. Blanks will not be accepted. VDOE recommends setting the default value for all "flag" fields to **N**.
- **Codes:** If the data element name contains the word "code", only a valid code or blank will be accepted. Please refer to the lists of valid codes for each of these data elements.
- **Implied Characters:** In the Student Records Data Collection, the percent sign (%) for Spec Ed Weekly Time % is implied. Enter 65 for 65%. The decimal point (.) for Non-public Student FTE is also an implied character. Enter 50 for .50.
- **Blanks:** Blanks must truly be blanks. Do not enter a zero or blank character space (i.e. hit the spacebar one time) when leaving a field blank.

The Disadvantaged Status Flag identifies the student as economically disadvantaged if the student: 1) is eligible for Free/Reduced Lunch, or 2) receives TANF, or 3) is eligible for Medicaid, or 4) identified as either Migrant or experiencing Homelessness.

Beginning in the 2005 – 2006 school year, the Disadvantaged Status is ‘as of any point in the school year’ and for the duration of that school year. If the student is identified as experiencing homelessness or becomes identified as migrant, at any point during the school year, the student is automatically identified as Disadvantaged and is also eligible for the Free and Reduced Lunch Program. Although it is well within the scope of the division to store the Homeless and Migrant status flag in their Student Information Systems, it is only the division’s Homeless and Migrant liaisons that should coordinate the benefits for the student. This change in eligibility is outlined in Superintendents Memo Regulatory #5, available at:

All high schools should currently collect the pertinent data. Schools should be aware of:
 - Students who are completing dual enrollment/dual credit courses and earning a “C” or better in the courses; and/or
 - Students who are completing advanced placement courses i.e., AP, IB, or Cambridge and
 - Scoring a “3” or higher on the AP examinations or

 - Scoring a “D” or better on the Cambridge examinations; and/or
 - Students who are earning college credits by passing College Level Examination Program (CLEP) examinations.
